Membership Badges/Photo ID Cards

It seems in the past few weeks we have had several people that are not members of the club passing through the gate when it is open and either using the facility or wandering around. This appears to be happening because either members are not stopping these people piggy backing through the gate as they enter or as members leave the non members drive in the open gate. If this happens report it to the executive.

Because of this we are now asking ALL members to always wear and display their membership badges. This change is in affect as of today.

We have also had a few members call when they left their membership/access cards at home. It is mandatory that you have your cards to attend the club. You are required to wear your photo membership card and to tap in and out at all bays. A solution used by many members is to keep their membership/access cards with their range bag or in their vehicle when not at the range.

When you attend a workday/event you must sign in to get credit for your workday hours.

Membership Stickers

The club no longer sends out year stickers for membership cards or renewals. The stickers were originally only for the old photo ID cards. Now that we also have main gate access cards, which control access to the club these stickers are no longer required. It was thought that the cost, around \$5,000.00 per year would be better spent on club improvements. In addition, about 80% of the workload in processing renewals, all done by volunteers, was printing, and sending out stickers.

New Members

All intake sessions for 2024 have now been completed. Membership is now closed for 2024.
